

Keep ahead of the game by attending this free, one-day workshop covering the latest in angiogenesis. All the key developments delivered to you by a faculty hand-picked by Professors Gordon McVie and Francesco Bertolini.

Leading figures in the field will cover key topics including:

- The basics of angiogenesis and vasculogenesis
- Biomarkers
- Imaging
- Anti-angiogenic drugs in gastric cancer

Don't worry about funding as ecancer is offering this event at no charge. Travel grants from within Italy will also be covered for the first 25 applicants.

Places are strictly limited, so get in touch today!
